COAL STRIKERS WITHOUT PILOT

Full Force of Injunction Now Being Felt by Leaders and Men

400,000 MEN ARE IDLE

Cannot Launch Propaganda Campaign for Public Sympathy—Officials Refuse to Discuss Situation.

Indianapolis, Ind., Nov. 3.—The full force of the government's most powerful weapon, injunction, is being felt strongly by the United Mine Workers of America. The coal strike was successfully launched, but last night it was still drifting without a pilot.

The great propaganda campaign, intended to win public sympathy and encourage miners in the field, cannot be launched. It was freely predicted today that the miners would have to seek some sort of a compromise and drive the best bargain they could.

At headquarters of the miners here none of the officials or attaches wanted to talk. And when they talked they did not want to be quoted. The spectre of the injunction was ever present.

Out in the fields the injunction is also being felt. When the miners laid down their tools they expected to receive strike benefits of not less than $8 a week, but in few if any of the fields can benefits be paid. Government officials said they expected after a few days the miners would become dissatisfied and make demands on their leaders for a settlement.

Around the Federal Building there was an air of confidence. At miners' headquarters there was thinly veiled discouragement.

Wash., Nov. 3.—Now that the bituminous coal strike has come; now that more than 400,000 mine workers are idle and at least three-fifths of the nation's total coal supply has been cut off, it is realized by all Government officials that the means must be found to keep the other two-fifths of the country's fuel output moving uninterruptedly to market. Otherwise a calamitous condition will exist before another week has passed.

Although both Government officials and mine leaders are waiting for today to show the full sweep of the strike, the fact is granted in Government circles even now that the strike is a colossal one; that it has closed more than half the producing mines of the country, and that while some of the men who walked out Friday night may answer the whistle today, the vast majority of the organized miners have defied the President, Congress and the courts and will remain defiant until some process is found for a settlement of the conflict.

PROHIBITION IS DOUBTFUL

Fate of Measure Hinges on Tomorrow's Election

AWAITING OHIO VOTE

Fifty Thousand Citizens Petition Legislature for Ballot Upon The Law.

Although forty-five State legislatures have ratified the Eighteenth, or prohibition, amendment to the Federal Constitution, the necessary three-fourths having been recorded officially on January 16, 1919, it still is a debatable proposition whether or not that amendment to the organic law has been duly adopted and whether or not it will become operative January 16, 1920, says Fred Essary in a Washington dispatch to the Baltimore Sun.

Should the action of ten of the State legislatures which have voted for ratification be reversed by means of popular referendums, the amendment would be nullified and the nation would return to a liquor basis, in so far as constitutional, as distinguished from statutory, prohibition is concerned.

The most important phase of this matter is the vote which the people of Ohio will cast Tuesday, at which time an effort will be made by the wets to negative the action of the Ohio legislature upon the question of ratification, and if this effort succeeds and is sustained by the United States Supreme Court, prohibition as an issue may be wholly resurrected.

The Ohio situation is this: The legislature of that State was one of the thirty-six which ratified the amendment. The wets almost immediately invoked referendum proceedings to overturn the action of the legislature. A legal fight took place in the Ohio courts and the supreme court of the State finally ruled that upon petition of 50,000 citizens the legislature's action would have to be voted upon. This petition was duly filed with the secretary of state and the question now appears upon the Ohio ballot.

PERISH IN HURRICANE

Dover, Eng., Nov. 3.—Nearly a dozen lives were lost in a severe hurricane which swept the waters around Goodwin Sands (in the northern part of the Dover Straits) last night. Three sailing vessels foundered and were battered to pieces in full view of the shore.

Never have such live-saving scenes been witnessed in these parts. Rescue crews battled with gigantic waves throughout the night, and even all day yesterday all attempts to reach the stricken vessels were in vain. The crews of the ill fated ships lashed themselves to the masts and rigging to escape being washed away by the mountains of furious waves constantly piling on them and tossing the vessels like nutshells.

The entire crew of the fourth vessel which was sighted yesterday morning, is believed to have perished in the storm.

SEEK HOUSES FOR TORPEDO EMPLOYEES

Committee Asks Co-operation of Citizens in Effort to Solve Problem

BEST CLASS OF MEN

Persons Having Rooms or Houses to Rent Phone 152 or Send Postal so They can be Inspected.

The undersigned committee of employees of the Naval Torpedo Station through the courtesy and co operation of the Chamber of Commerce of this city, have been detached by Capt. W. S. Miller, the Commandant of the Station, for special duty in connection with the housing problem, which confronts the present and prospective employees of the station.

We ask the hearty co-operation of each and every public, spirited citizen in our effort to solve the serious problem which confronts us and we assure you that any assistance rendered this committee will be appreciated by us and by those we represent.

The problem of the permanent housing of the employees is now being handled by a committee of the Chamber of Commerce and with every indication of success, but while these plans are being formulated and carried into execution and to completion, arrangements must be made to temporarily take care of those who are here and who will come here in the next few months.

Such temporary arrangements include rooms for single men, with and without board, rooms for light housekeeping, small apartments, and small houses for men of families. And we must insist that this emergency be not used as an excuse by those having such accommodation, to increase rates beyond what is fair and just.

We request those having accommodations such as listed above to notify this committee by phone (152) or postal and state at what time it would be convenient to have a representative call to inspect same.

It has also come to the attention of this committee that there are a number of small houses idle in this city which cannot be rented as they are held for sale only. We ask the owners of this property, as a patriotic and civic duty, to withdraw this property from sale at least until spring, so that this committee may place therein, as reliable tenants, employees of this Station, a number of whom are now seeking such accommodations.

This committee has established an office in the rooms of the Chamber of Commerce and a representative may be found there at any time between the hours of 8.00 a. m. and 4.30 p. m. and we extend to those who desire to co-operate with us, an invitation to visit us at this office. Where this is not convenient, a representative will gladly call at any appointed place or time, on any one having information of value to us.

We wish to impress upon the citizens of Alexandria the fact that the majority of men to be employed in this plant are highly skilled mechanics of exceptional ability and of a high moral standard and therefore the citizens of Alexandria need have no scruples against opening their houses to them. The committee will make every effort to place each individual in the proper surroundings.

Respectfully.
L. J. Hinman, Chairman.

THE REVIVAL MEETING

Large Audiences at the First Baptist Church

Yesterday was red letter day in the history of the First Baptist Church. There were capacity audiences at all the services. Rev. Dr. E. B. Jackson, the pastor, preached in the morning at the Second Baptist Church, Washington, and the evangelist, Dr. Stewart spoke to the Sunday School and preached at 11 o'clock. Many came making a public profession at both morning services. The spirit of God was manifest with great power. At night, in the absence of Mr. Stewart, the pastor preached to a great throng, on "What it costs to to be a Christian." He brought many illustrations out of his own experience and observation. He pointed to the cost of peace,' joy, hope, and the favor of God. There was the deepest feeling manifested and, after earnest appeals, a number of strong men and others came to the front. Altogether it was the climax to what is considered the most remarkable meeting held in Alexandria since the Gypsy Smith meetings. The Rev. H. I. Stewart will preach tonight and tomorow night. Those who desire seats must come early.

ANTI-TUBERCULOSIS APPEAL

The AntiTuberculosis Society of Alexandria is making a most earnest appeal to the citizens of our town for assistance to carry on the work which has been so wonderfully conducted by its members in the past years.

Up to this time the Society has been able to meet the financial demands made upon it, but with the growth of the town and its changed conditions, it now finds this appeal to our people necessary.

It is believed that this statement will be all sufficient, and that the necessary funds for this far reaching work will be forth coming in the next few days, as Alexandria has never failed yet—to come to the front when called upon to aid in good work.

Contributions may be sent to Miss Fannie S. Herbert, treasurer, 116 North Washington street.

ELECTIONS TOMORROW

Five Governors will be chosen tomorrow. In Massachusetts Governor Coolidge is running for re-election and his platform is law and order. He seeks an indorsement of his position in the late strike of the Boston police.

In New Jersey the issue is practically that of prohibition. The democratic candidate is opposing the measure.

Maryland will choose a Governor tomorrow.

In Kentucky the issue is apparently the League of Nations.

Senators and Delegates to the Legislature will be selected in Virginia tomorrow.

ALL MUST WORK

While the strike epidemic is raging, the following from the Birmingham Press is in order:

"When half a city burns, the fire is not put out in a day. After the firemen announce that they have it "under control," the wreckage continues to smolder for days, perhaps for weeks, while the flames occasionally leap up and threaten a new conflagration.

"When half the civilized world has been burned over, the fire cannot be put out in a year. We got this world conflagration under control on the 11th of last November, but for years to come the wreckage will smolder and threaten a new outbreak.

"If we see staple governments established and industry restored and peace made secure within 10 years of the war's end, we may count ourselves remarkably fortunate.

"Here at home, as well as elsewhere, patience is needed for the great work of rebuilding the world, patience and courage and less foolish fault-finding and a greater willingness to work—above all, just that one thing, work!"

TOBACCO INSPECTION

The republican party of Maryland is pledged to repeal the law which makes it obligatory upon tobacco growers to have their products inspected in Baltimore. A farmer in a communication to a Baltimore paper says the repeal of the law is a paramount issue.

The mismanagment and unfair treatment by the present administration of the state tobacco warehouses have worked hardships untold on every planter, commission merchant and buyer the writer says. The confusion and delay in having the tobacco sampled cost untold amounts in money, labor and peace of mind to all connected with this industry, he says.

The above will bring to mind a sad reminiscence in the history of Alexandria, and carries us back about eighty years. During most of the first half of the last century Alexandria was a tobacco market. Tobacco warehouses were located here as well as cigar manufactories employing many men and boys. The tobacco brought to Alexandria was from Maryland, and the products of Prince George's, Charles and St. Mary's counties on the opposite side of the Potomac were brought here. On the site of the present shipyard—adjoining the plant of the Virginia Shipbuilding Corporation on the north—tobacco warehouses were situated, while manufactories were located in other sections of the city.

The Legislature of Maryland passed a law which provided that all tobacco grown in Maryland be inspected in Baltimore, and what was for years a valuable commercial asset of Alexandria passed to the monumental city.

GERMANY'S DEBT

Germany is in a bad way financially. A representative of the new government at Berlin says it will cost as much to wind up the war as it did to conduct it during 4 years and more of actual hostilities. The national debt already reaches 172,000,000,000 marks, against only 5,000,000,000 previous to the war, and financial authorities claim the debt will have increased to 204,000,000,000 marks by April.

Under normal conditions the mark represents 24.8 cents in United States money, which would mean that the German debt by next spring would be approximately $55,000,000,000. The fact that the existing low rate of exchange results in the German mark being exceptionally cheap in this country, ranging between 4 and 5 cents, in no way makes Germany's burden less heavy.

Whe compared with America's war expense of about $30,000,000,000, the figures announced by Germany will hardly seem adequate punishment for the harm she did. But to the German people, it is staggering. Loss in man power, ocean tonnage, international commerce and foreign territorial possessions also must be taken into consideration. These may all be charged up against the war.—(Cleveland Plain Dealer.

STRIKE HITS TRAINMEN

Yard Crews Here Laid off Because of Rail Curtailments

Baltimore, Nov. 3.—With coal traffic, amounting to nearly 60 per cent of the entire freight movement over the Baltimore and Ohio and Western Maryland railroads, virtually at a standstill, the first local manifestation of hardship growing out of the coal strike will be in the shape of an enforced lay off of railway employes. Federal Administrator Charles W. Galloway said yesterday. Since the Pennsylvania Railroad freight in this State is not as great in proportion as that of the other roads, not so many employes of that line will be forced out of employment, local railroad executives agreed.

The layoff began yesterday, when 53 yard crews, of about five men each, were told to remain at home because there was nothing for them to do. With the railroads making every effort to curtail unnecessary movements and in general to conserve coal a pruning down of working forces throughout the entire system and allied activities will have to take place this week, Mr. Galloway said.

The big Baltimore coal piers virtually are at a standstill; engines in Maryland yards are having their fires drawn and are being retired temporarily in all cases where their use is not absolutely necessary, and shifting operations in local yards are being reduced to the lowest possible minimum—all of which is either forced by the strike or adopted as a matter of economy in coal. Mr. Galloway pointed out that engineers, firemen and others engaged in actually driving rolling stock will be by no means the only ones affected. Many coal pier employes of course, already are out of employment. At the present rate at which locomotives are being retired one half of the crews will be laid off, and with only half the number of engines in use, something approaching that proportion of shopmen will have nothing to keep them busy.

Since railroading work is so highly systematized, it was pointed out, such employes, as train dispatchers, yard clerks, ash pit men, fire cleaners and even members of the office forces will be affected.

Mr. Galloway said that there probably will be no curtailment just now of the regular passenger service on the lines under his control.

500,000 VOTE TO STRIKE

State Union Men Unite to Act for Restoration of Constitutional Rights

Pittsburgh, Nov. 3.—A state-wide strike of organized labor, affecting 500,000 workers, was approved yesterday by the special convention of the Pennsylvania Federation of Labor "to restore the constitutional rights of free speech, free press and free assembly."

The resolution was carried with cheers by the convention which was called to act on the suppression of meetings in the steel strike. But two delegates voted against the measure.

Governor William Sproul is called upon in the resolution to call a special session of the legislature to act as an impeachment tribunal against public officials guilty in the eyes of labor men of violating their oaths of office.

Another resolution provided for a referendum among local unions of various crafts on the question of organizing a labor party in Pennsylvania. President James H. Maurer anounced the opening of subscriptions for a $500,000 fund for establishing a daily labor newspaper for Pennsylvania.

Three great groups of unions now attacked by their employers, the railroad men, miners and steel workers, were urged to "pool their forces," form a joint committee and refuse to make any settlements that do not include all of them. The convention, extended its "moral and financial strength" to the striking coal miners.

MILD CASES OF FLU

Freeling, Va., Nov. 3.—A number of cases of flu are reported in this immediate section, but no deaths have resulted from the disease, as yet. Only home treatments are being given.

About the year 1885 this epidemic was general in Dickenson, Wise and Buchanan counties, Virginia, and Pike and Letcher counties, Kentucky. The death rate was high, perhaps one-third of the cases proving fatal. Since that time there have been isolated cases, and an occasional death.

TO MAKE GERMANY PAY

All Violations of Armistice Terms Must be Settled For in Full

Paris, Nov. 3.—Demand will be made of Germany that all violations of the armistice shall be made good. This has been decided upon by the Supreme Council, which has completed the protocol to the German treaty.

The proctocol provides that Germany shall surrender cruisers and destroyers to replace those sunk at Scapa Flow, and also surrender floating dry docks, lighters, cranes, tugs and other naval equipment equal in value to that of the first-class battleships destroyed, which Germany cannot replace.

THE ARMY IS READY

Prepared to Mobilize Troops Wherever Required

Chicago, Nov. 3.—The War Department yesterday placed at the disposal of Major General Leonard Wood, commander of the Central Department of the Army, the 140th Cavalry at Fort Sam Houston, for use, if necessary, in Colorado in connection with the strike of soft-coal miners. In the absence of any developments indicating trouble in the Colorado mine fields no orders looking to early movement of the regiment were issued.

Federal troops already are in West Virginia and Tennessee for emergency use, and General Wood was ready to dispatch further regular Army men to any dangerous points upon requests from civil authorities for federal aid.

State troops to the number of one thousand or more had mobilized or had orders to mobilize in Colorado and Alabama and in other coal-producing states, the authorities holding their forces ready for calls for protection of miners and mine properties.

Two other troop movements within the Central Department were ordered by the War Department today, but without any reference to the coal strike. The 41st Infantry was ordered transferred from Camp Funston, Kas., to Camp Upton, N. Y., and the 14th Infantry from Camp Grant, Ill., to Camp Custer, Mich.

THE LOCKOUT IN SPAIN

Barcelona, Nov. 3.—The civil governor of Barcelona met in conference for several hours last night and yesterday morning with the leading citizens of the city in an effort to devise means for preventing the lockout by the employers set for tomorrow in Barcelona and, in the event of failure, making sure that order would be maintained. All the conferees promised to give their help to the government, to seek to prevent violence and to work for the re-establishment of normal social conditions in the city.

The citizens of the town, who formed themselves into a force of special police, received orders to be ready for duty should the occasion require.

Four out of the nine important newspapers in Barcelona have stopped publication because of the impending lockout. During yesterday delivered [illegible] to Madrid from Barcelona, the Allied [illegible] Barcelona [illegible] members of the [illegible] Union, refused to [illegible] unless the [illegible] union members were expelled from the hall. Upon Senor Cambo refusing to order the expulsion, the syndicalist reporters quit the room, leaving their newspapers without a report of the address.

"One evening, when the planters had gathered at the White Turkey to smoke and jest after the rigors of the day, a hot dispute arose between one Ashley and the Rev. Peter Faircloth, as to the merits of the tobacco leaf grown on their respective plantations. The worthy doctor so far forgot himself as to throw his pipe at Ashley."

—Life in Early Virginia.

From long clay pipes to cigarettes

In the days of old Jamestown, men gathered in the taverns to smoke their long clay pipes brimful of golden Virginia-Carolina tobacco.

This same fragrant Virginia-Carolina—improved by three centuries of cultivation—is smoked today in three-fourths of the world's cigarettes.

Any cigarette is made better by adding Virginia-Carolina tobacco—but men who want *all* of its keen zest and savory relish smoke it straight in an *all*-Virginia-Carolina cigarette.

Try it that way yourself—in a Piedmont.

POLICE TO QUIT A. F. OF L.

Knoxville Force Votes 47 to 7 to Surrender Charter

Knoxville, Tenn., Nov. 3.—The Knoxville police decided yesterday to surreder their union charter. After a stormy meeting the decision to surrender the charter but retain a union organization without outside affiliations was carried by a vote of 47 to 7.

The meeting indicated that the police felt they had been unjustly criticized by the newspapers and taxpayers for their conduct in handling last Sunday's crowds in connection with the street car strike. A committee was appointed, however, to take up the matter of surrendering the charter with the American Federation of Labor.

As a result of bitter criticism of the Commissioners, following their order prohibiting all Sunday mass-meetings this order has now been amended. The Commissioners were attacked on the grounds that they were attempting to abridge constitutional rights of free speech, and they amended their ban against meetings to the extent of prohibiting them only on property owned by the city.

SINN FEINERS ACTIVE

Republican Flag Waves Over City Hall in Belfast.

Belfast, Nov. 3.—The magistrates of the police court at Belturbet, County Cavan, on entering the court Saturday found the royal arms over the bench disfigured and with the outline of a skull drawn over them, together with the inscription R. I. P. (requiescate in pace). A large Sinn Fein Flag was painted on the wall, with the flag of the Irish Republic beneath.

The republican flag is also floating over the Town Hall, the City Council ignoring a request for its removal.

DEATH LIST REACHES 14

Philadelphia, Nov. 3.—Fourteen members of a Halloween party, including two women, are dead, as the result of a crash between a Pennsylvania Railroad train and a large motor truck which was bringing thirty-six masqueraders from an evening party at Billingsport to their homes here.

Twelve of the party were instantly killed, two died later in the hospital and seventeen others, most of whom are women, are in hospitals where the injuries of some were declared to be very serious.

Will the Influenza Return?

Public Health Authorities Predict its Recurrence

Guard Against it by Building up the Blood

Pepto-Mangan Creates Rich Red Blood and Increases Strength

Surgeon General Blue, of the United States Public Health Service, in a recent statement from Washington, warns the public that the much-dreaded influenza epidemic will probably return this fall and winter. All medical authorities agree that the weak, bloodless, rundown individual is more likely to contract this (as well as any other infectious disease) than is the strong, robust, red-blooded man or woman. In view of these facts, it is wise to use every effort to build up the blood and thus increase the bodily resistance to the invasion of the germs of the disease. Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's", it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.

SPURNS GOUGERS' GOLD

Baptist Minister Would Bar Money From Collection Basket

New York, Nov. 3.—Baptist churches throughout the country were urged to spurn money offerings by profiteers, "the meanest kind of thieves," in a statement issued here last night by the Rev. Dr. Samuel Zane Batten, secretary of social service education for the American Baptist Publication Society.

"Every Baptist church should know whether any of its members are engaged in this nefarious business of profiteering," said Dr. Batten. "The church should refuse to touch the dirty money of these people. No self-respecting church would tolerate in its fellowship a person known to be guilty of highway robbery or horse stealing, and the sin of profiteering is meaner, blacker and more sinful than either of these. The church must make the will of God very plain on this subject"

A DECLARATION

BY HON. J. H. DODGE

Candidate For State Senate

To The Voters of the 14th District:

As stump speaking has gone out of fashion, I find it impossible to place myself and the principles for which I stand before the people by a series of addresses given throughout the district, and, as it is a physical impossibility for me to canvass each individual voter of the district to tell him my views and my claims for his support, and, as I am constantly receiving inquiries in such numbers that I find it impossible to answer by private letter for lack of stenographic help, I have decided to issue this circular declaration in the local press to the end that those interested may know how I stand on some of the vital issues of this campaign, though I find it quite impossible in this necessarily brief statement even to begin to mention my views on many public questions and even the few here mentioned are not as clear as if I could go into more detail explanations.

OUR SOLDIER BOYS

It is nothing less than an outrage on our boasted patriotism that Virginia, the mother of states and statesmen, should be the only state in the nation that has failed to enfranchise the soldiers of the late world war, and if I am elected to the General Assembly, I shall father an act where by the soldier in times of war be exonerated from the payment of any capitation tax as a prerequisite to voting, thus making it possible for every man who honorably served with the colors during the late world war to have full and immediate franchise.

PROHIBITION

In view of the fact that national prohibition goes into effect on the 16th of January and much of the burden of the enforcement of the dry laws fall to the national state prohibition commissioner, I shall favor the abolition of the office of our state prohibition commissioner and throw the responsibility of enforcing our state laws and of colaborating with the national officers on the local constituted authorities. Feeling under the circumstances that this arrangement will be for the welfare of all concerned, and that the $200,000 appropriation asked to sustain a state department can better be expended on our public schools and on our roads.

ABOLISH USELESS OFFICES

It was one of the avowed purposes of the last constitutional convention to eliminate many offices of the state to the end that taxes be reduced. Much was accomplished and we made a new start only to get into the same old rut again. The state has been multiplying its offices until now it has become top heavy with officers and the consequent tax burden is becoming unbearable. It is impossible in this short declaration to specify how and what to curtail, but I know it can be done without violence to the efficiency of our laws and, if I am elected, I shall make it by special duty to get busy and after careful study, I shall favor the abolition of many unnecessary offices, and the consolidation of others to the end that efficiency be increased and the tax burdens of sustaining so many offices and officers be reduced.

PUBLIC SCHOOLS

I stand for the widest possible extension and increased efficiency of our public school system.

GOOD ROADS

I favor cooperating with the national government in road construction, and the widest possible extension of our good roads system of both state and county roads to the end that the farmer may more cheaply get his produce to market thus bringing down the high cost of living.

THE LABORER AND THE FARMER

Upon these two classes of our citizens falls the greater part of the burden of production. I favor laws that shall encourage the production of the necessaries of life at the lowest possible cost, and for the governmental regulation of the profits of the middlemen to the end that food, fuel and clothing shall reach the consumer at the lowest possible cost. Being a laboring farmer myself, I propose to do all in my power to see that these interests receive a square deal, and just laws.

MY POLITICS

In this connection, I am running as an independent candidate, and as the nominee of the Republicans. After a careful analysis of the August primary vote, I concluded that the nominee of that primary was not the free choice of the people of the district, and with assurances of support from various parts of the district, I concluded to make the race as an independent candidate, should there be no other nominations, and I announced my independent candidacy at the Prince William County Farmers' picnic at Manassas on August 15th. The following week in Alexandria, the Republicans offered me their nomination on a satisfactory platform, which I accepted. Thus I am an independent candidate and the Republican nominee. I am officially in no way connected with any political party. My alignment in the past, nationally has been Republican; what it will be in the future depends upon the "men and issues" which are yet to be determined. (I am no beast with a ring in my nose to be lead around by any political "click" or party—are you?) But what has national politics—the league of nations for example—to do with this election? I fully appreciate the fact that this is normally a strongly Democratic district, and I shall duly regard all sources from which I receive support, but I want to go to Richmond "unbound" so I may labor unhampered for the very best interests of the district and of the state. I ask your votes on my public record and on my published platform. I appeal to my friends in all parts of the district to get busy and elect me, and I promise ever to be true to the trust imposed.

Respectfully submitted,
J. H. DODGE.

General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

"TERROR" BAND

Asheville, N. C., Nov. 3.—Thirteen young men of the Barnardsville section of this county were arrested yesterday by sheriff's deputies on charge of forming an organization which the officers say has caused a reign of terror in the community for several weeks.

The use of dynamite to break up religious gatherings is the most serious charge against the men. All gave bond for appearance today for trial.

BLUE RIDGE STILLS RAIDED.

Dozen Moonshine Outfits Captured by U. S. Agents

Luray, Va., Nov. 3.—Reports that have reached Luray indicate that internal revenue men have made wholesale raids among the moonshiners in the mountain districts of Rappahannock county, capturing, it is said, 12 or 15 illicit distilleries in what is known as Nichols Hollow, a wild portion of the Blue Ridge.

All of the alleged operators of the distilleries are alleged to have escaped, except two men.

STRIKE IS WEAKENING

Confidential Reports Cheer Washington Officials

Washington, Nov. 3.—Immediate steps for assembling at Washington an industrial commission to deal broadly with present turbulent conditions was suggested yesterday by the Advisory Board of the Brotherhood of Locomotive Engineers.

"Deploring attempt at government by injunction," as a means of settling the coal strike, the board, speaking for 85,000 members, declared injunction proceedings would make conditions worse "and defer, if not defeat, a peaceful settlement."

The board stood out for an industrial commission that would recognize the rights of all citizens and not be pledged to oppose collective bargaining. Its statement, the only formal one bearing on the strike issued here during the day, was considered a direct outgrowth of the miners' walkout, and was prepared after full and careful consideration of all questions leading up to the break between operators and mine workers.

The government's next move in the effort to keep the country supplied with fuel will depend upon what happens in the coal fields tomorrow.

Attorney General Palmer and his associates were cheered yesterday by confidential reports which were said to show a tendency in some districts to call off the strike. Some locals were asserted to be making efforts to this end. In other places, however, the miners were reported apparently determined to stay out until their demands were granted.

In a general way the confidential reports were along the same lines as press dispatches showing that the union miners, almost to a man, had quit, while in the nonunion mines work went on without apparent interruption.

Five or six of the coaches rolled down an embankment and another was wrecked. The latest reports state that 22 persons were killed and more than 20 others injured, but it is feared that a number of bodies are still under the wreckage.

Invention Perfected Here Will Greatly Increase Efficiency of Service

Officials of the Post Office Department are expected to make public within a few days details of a mysterious wireless telephone recently perfected for use in aeroplans equipped with liberty motors, enabling the pilot of a machine to detect deviations from his course.

Experiments with the new apparatus have been conducted daily at College Park, Md., for over a month past at the air mail landing field beside the Baltimore and Ohio Railroad tracks. Final tests were made on Thursday, Friday and Saturday of the past week before officials of the Post Office Department and experts of the Westinghouse Electric Company. General Electric Company and others. Complete success resulted.

The new device overcomes for the first time interference caused by the proximity of a liberty motor.

PRICES OF COAL

Attorney General Sharply Replies to Coal Trade Head

Attorney General Palmer declared yesterday that the government will take the same action to protect the interests of the general public during the coal strike against coal producers or distributors who combine to enhance the price of coal as was taken to prevent the miners leaders from furthering the strike.

Referring to the action taken in restraining the officers of the mine workers, Attorney General Palmer said:

"I shall not permit it to be used directly or indirectly for the benefit of the employers' side of the controversy."

THEATRES

GRAND THEATRE

Sessue Hayakawa, the popular Japanese actor in Paramount pictures is now appearing at the Grand Theatre in "The Honor of His House," a Paramount picture in which several of the scenes were taken in Hawaii. The story is supposed to develop in one of the smaller and more remote of the islands of the Pacific. Florence Vidor, who recently appeared with Hayakawa in "The Secret Game," is the leading woman in this photoplay while others in the cast are Jack Holt, Maym Kelso, Forest Seabury and Tom Kurahara. The story and its screen version were written by Marion Fairfax, while William C. DeMille was the director. The island scenes are particularly beautiful, and the gowns worn by Miss Vidor in the latter part of the photoplay will appeal to feminine love of finery. Also 14th Chapter, "Perils of Thunder Mountain."

OPPOSE POLICY OF LABOR

Kansas City, Nov. 3.—Organized labor cannot count on the farmers to join it in any efforts to further shorten the hours of labor or increase wages, according to resolutions adopted by the International Farm Congress at its annual session here. Furthermore, organized labor must very shortly heed a concerted demand from the farmers that it not only cease agitation along these lines, but that it use its best efforts toward "exerting a steadying influence" in these turbulent times, particularly by refraining from striking.
